

CSET489 Mini-Project – Milestone I Report Template

Read before you start (delete this section before submitting)

Every team submits one report in exactly this structure. Reports that ignore these rules may lose marks due to penalties.

1. **Keep every heading exactly as written**, including its number. Do not rename, merge, reorder, or skip sections. If a section does not apply, keep the heading and write one line explaining why.
2. **Replace all guidance text**. Lines in *italics* tell you what to write. Delete them and write your own content in their place.
3. **Type data as real tables, not screenshots**. Keyword lists, SERP findings, DNS records, and similar data **must be typed into the tables provided**. Screenshots are evidence, not a substitute: add them after the table they support.
4. **Paste terminal commands and output as text** in the appendix code blocks. A screenshot of a terminal alone does not count as a command log.
5. **Number and caption every figure** (Figure 1, Figure 2, ...) and list each one in the Evidence Index.
6. **Export to PDF directly** from Word or Google Docs. Do not print, scan, or photograph the report.
7. **File name:** CSET489_M1_[TeamID]_[TeamName].pdf, for example CSET489_M1_T042_RankRiders.pdf. One file per team, uploaded once.
8. **Length:** 15 to 25 pages including figures, excluding the appendix.

Cover Page

Bennett University – School of Computer Science Engineering and Technology (SCSET)

Course: CSET489 – Search Engine Optimization

Programme / Semester: B.Tech CSE, Semester VII, 2026–27

Assessment: Mini-Project, Milestone I – SEO Research, Analysis, Project Design & Deployment (20 marks)

Course Facilitator: Dr. Saumitra Gangwar

Field	Entry
Team ID (as assigned)	
Team Name	
Project / Website Title	
Niche (one line)	
Live Website URL (https://...)	
Domain Registrar	

Field	Entry
VPS Provider	
Submission Date (DD-MM-YYYY)	

Team Members

List the team leader first. Names and enrolment numbers must match university records exactly.

S. No.	Full Name	Enrolment No.	Role (Leader / Member)	Email
1			Leader	
2			Member	
3			Member	
4			Member	
5			Member	

Team Contribution Statement

For each task, write the enrolment number of the member who led it, and the enrolment numbers of any members who supported it. Every member must lead at least one task. Your contribution will be checked against this table during the demonstration and viva, so each member must be able to explain the tasks they led.

Task	Report Section	Led by (Enrolment No.)	Supported by (Enrolment No.)
Niche selection, audience and problem analysis	1		
Keyword research and intent classification	2		
SERP analysis	3		
Competitor and content-gap analysis	4		
Site structure and keyword-to-page mapping	5		
SEO strategy and	6		

Task	Report Section	Led by (Enrolment No.)	Supported by (Enrolment No.)
roadmap			
Domain registration, DNS and Cloudflare	7		
VPS provisioning and WordPress deployment	8		
Report compilation and evidence	All		

Approximate Share of Total Work

Shares must add up to 100%. All members must agree before submission.

Enrolment No.	Name	Share of Work (%)	Main Contribution (one line)

Declaration: All members have read this report and agree that the contribution statement above is accurate.

Each member types their full name and enrolment number below as confirmation.

- 1.
- 2.
- 3.
- 4.
- 5.

1. Niche, Target Audience & SEO Problem

1.1 Niche

State the niche in one sentence and say whether it is evergreen or trending.

1.2 Target Audience Personas

Persona	Age / Profile	Main Need	Typical Search Query
---------	---------------	-----------	----------------------

Persona	Age / Profile	Main Need	Typical Search Query

1.3 SEO Problem Statement and Justification

Write 100–150 words. State the specific search problem your site will solve, and support it with data such as search volumes, trends, or SERP gaps. Name the source of each figure.

2. Keyword Research & Search Intent

Tools used: list them, e.g., Google Keyword Planner, Ubersuggest, KWFinder. **Data collected on:** DD-MM-YYYY

2.1 Primary and Secondary Keywords (10–15)

Primary targets should **preferably** have KD below 20.

#	Keyword	Type (Primary / Secondary)	Monthly Search Volume	Keyword Difficulty (KD)	Intent (Informational / Commercial / Transactional / Navigational)	Source Tool
1						
2						
3						

Add rows until you have 10–15 keywords.

2.2 Long-tail and LSI Terms (5–10)

#	Term	Long-tail / LSI	Competition (Low / Medium / High)	Relevance Score (1–5)	Related Primary Keyword
1					
2					

3. SERP & Ranking Analysis

Analyse the top 5 results for at least 3 primary keywords. Repeat the table for each keyword.

Keyword: *[keyword]*

Rank	Ranking URL	Content Type	Approx. Word Count	Featured Snippet (Y/N)	Key Structural Pattern
1					
2					
3					
4					
5					

People Also Ask questions: *list them.*

Ranking Patterns and Takeaways

In 100–200 words, explain what the top-ranking pages have in common and what your pages must do to compete.

4. Competitor Analysis & Content Gap

Analyse exactly 2 direct competitors.

Metric	Competitor 1	Competitor 2
Domain		
Domain Authority / Rating (tool name)		
Referring Domains		
Top 5 Ranking Keywords		
Main Backlink Sources		
Content Strengths		
Content Gaps		

4.1 Ranking Opportunities

List the specific opportunities you will target, each tied to a gap found above.

Opportunity	Gap It Addresses	Target Keyword	Planned Page
-------------	------------------	----------------	--------------

Opportunity	Gap It Addresses	Target Keyword	Planned Page

5. Site Structure & Keyword-to-Page Mapping

5.1 Site Hierarchy

Insert a diagram of your site hierarchy (Homepage, About, categories, blog posts) as a numbered figure.

5.2 Keyword-to-Page Map

Each primary keyword maps to exactly one page, to avoid keyword cannibalization.

Page	URL Slug	Primary Keyword	Secondary Keywords	LSI Terms	Search Intent
Homepage	/				
About Us	/about/				

6. SEO Strategy & Implementation Roadmap

List tasks in the order you will do them, through the Milestone II deadline.

Week	Task	Category (Technical / On-Page / Content / Off-Page)	Priority (High / Medium / Low)	Owner (Enrolment No.)

In 2–4 sentences, explain why the high-priority tasks come first.

7. Domain, DNS & Cloudflare Configuration

Item	Entry
Domain Name	
Registrar	
Registration Date	
Nameservers (Cloudflare)	
Cloudflare SSL/TLS Mode (must be Full or Full)	

Item	Entry
(Strict))	
Proxy Status (Proxied / DNS only)	
Caching Rules Configured	
DNS Propagation Verified On (date, tool used)	

7.1 DNS Records

Type	Name	Content / Value	Proxied (Y/N)
A	@		
CNAME	www		

7.2 Evidence

Add numbered screenshots of: registrar nameserver settings, Cloudflare DNS page, SSL/TLS mode, and a DNS propagation check.

8. VPS Deployment & WordPress Setup

Item	Entry
VPS Provider and Plan	
Server Region	
Operating System and Version	
Web Server (Nginx / Apache / OpenLiteSpeed) and Version	
PHP Version	
Database (MySQL / MariaDB) and Version	
SSL Certificate Issuer (e.g. Let's Encrypt) and Expiry Date	
WordPress Version	
SSH Authentication Method (key / password)	

8.1 Deployment Steps

Summarise each step in one line, in order. Paste the full commands and their output in Appendix A.

1.

- 2.
- 3.

8.2 Issues Faced and Fixes

Issue	Cause	Fix Applied

8.3 Evidence

Add numbered screenshots of: the VPS dashboard, the live site homepage over HTTPS, the WordPress admin dashboard, and the certificate details in the browser.

Never include passwords, private keys, API tokens or server login credentials in this report.

9. Evidence Index

List every figure in the report. Each figure must appear here with the section it supports.

Figure No.	Caption	Section	Page
Figure 1			
Figure 2			

10. Tools and AI Use Disclosure

Tool or AI Assistant	What It Was Used For	Section(s)

Using AI tools for drafting is allowed only if disclosed here. All data, analysis, and decisions must be the team's own and verifiable.

11. Declaration of Originality

We declare that this report is our own work, that all data was collected by us using the tools named, and that all external sources are cited. We understand that copied content, fabricated data, or undisclosed AI-generated content will be treated as academic misconduct.

Appendix A: Command Logs

Paste SSH commands and their output as text, in the order they were run. Remove passwords and keys.

```
# Example:
$ ssh root@<server-ip>
$ sudo apt update && sudo apt upgrade -y
...
```

Appendix B: References

List all sources cited in the report.
